

# Patient Blood Test Report - CKD Stage 4

Patient Name: Aryan Deshmukh

Report Date: April 2, 2026

Diagnosis: Chronic Kidney Disease (CKD)

| Parameter              | Result               | Reference Range            | Status |
|------------------------|----------------------|----------------------------|--------|
| WBC Count              | 7,200 / $\mu$ L      | 4,000 – 11,000 / $\mu$ L   | Normal |
| RBC Count              | 3.2 million/ $\mu$ L | 4.5 – 5.5 million/ $\mu$ L | Low    |
| PCV (Hematocrit)       | 28%                  | 40% – 50%                  | Low    |
| Sodium (Na+)           | 137 mEq/L            | 135 – 145 mEq/L            | Normal |
| Potassium (K+)         | 5.8 mEq/L            | 3.5 – 5.1 mEq/L            | High   |
| Serum Creatinine       | 4.2 mg/dL            | 0.7 – 1.3 mg/dL            | High   |
| Blood Urea             | 115 mg/dL            | 15 – 45 mg/dL              | High   |
| Blood Glucose (Random) | 155 mg/dL            | 70 – 140 mg/dL             | High   |
